Lorie,

I am working on edits to this document. But I wanted to provide you the template.

Subject: Blades Groundwater Site Profile Page

Hi Connor,

The site profile page for Blades Groundwater has been set up! Now, we just need to populate it. I started working on a draft of some language to include. The document attached lays out the various sections of the web page and the information we need to provide.

When you have a chance, could you help me fill in some of the technical site information and ensure that what I wrote is accurate? Please feel free to input as much information as you want. Don't worry about writing style/formatting, I will go back and do this later.

My goal would be to publish the information on the site by Wednesday at the latest, so it is ready to go when our outreach materials are published. Let me know if you have any questions.

Thank you!

Amanda Miles
